SUMMARY

Aspiring Software Engineer with intermediate Java, basic Python and SQL skills, and hands-on exposure to AI tools and Prompt Engineering, seeking a fresher role at Infinite Computer Solutions. Developed AI-integrated projects and hold certifications in Java and Claude AI, demonstrating a strong foundation in problem-solving and intelligent software development.

SKILLS

Technical Skills

- Java, Python (Basics)
- SQL(Basics)

Core Knowledge

- Digital Electronics
- Signals and Systems
- Embedded Systems

Emerging Tech

- AI Tools
- Prompt Engineering
- KUKA Robot Programming and Operating

PROJECT

GREEN MAESTRO

Sep – Nov 2025

It is an AI and IoT-based smart farming application designed to improve agricultural productivity through soil monitoring, weather analysis, disease detection, and smart irrigation. The system provides crop recommendations, organic farming guidance, and market linkage solutions using sensor data, cloud technologies, and intelligent analytics.

BANKING SYSTEM

June 2025

Developed a console-based Java banking system using arrays, strings, loops, and conditionals with features including account creation, deposits/withdrawals, FD/RD, loan management, and balance checking.

YOUTUBE ANALYTICS DATA PLATFORM

2026-Present

Architected an end-to-end YouTube analytics platform using PySpark, Airflow, and Docker, implementing a Medallion Architecture (Bronze/Silver/Gold) on HDFS/Hive to automate incremental API ingestion and deliver interactive Streamlit dashboards.

CERTIFICATIONS

- KUKA Robot programming, FASCO Pvt. Ltd., Coimbatore
- Basics of Java Programming, Tech with Trainer
- Claude 101, Claude Code 101 and Introduction to Claude Cowork
- Prompt Engineering, Dey Academy

EDUCATION

B.E. Electronics and Communication Engineering

2023 – Present

J.J. College of Engineering and Technology, Trichy
CGPA 8.2

2022-2023

Montfort Matric Hr. Sec. School, Trichy
HSC - Percentage: 79

2020-2021

Montfort Matric Hr. Sec. School, Trichy
SSLC - Percentage: 85
