

TEST CASE DOCUMENTATION

Project Name

Postman Collection to Pytest Migrator

Test Case 1 – User Registration

Field	Description
Test Case ID	TC-001
Test Case Name	User Registration
Objective	Verify that a new user can register successfully
Input	Full Name, Email, Password
Expected Result	User account created and stored in database
Actual Result	User successfully registered
Status	Pass

Test Case 2 – User Login

Field	Description
Test Case ID	TC-002
Test Case Name	User Login
Objective	Verify that registered users can login
Input	Valid Email and Password
Expected Result	User redirected to dashboard
Actual Result	User successfully logged in
Status	Pass

Test Case 3 – Invalid Login

Field	Description
Test Case ID	TC-003
Test Case Name	Invalid Login
Objective	Verify authentication validation
Input	Incorrect Password
Expected Result	Error message displayed
Actual Result	Login denied
Status	Pass

Test Case 4 – Upload Collection

Field	Description
Test Case ID	TC-004
Test Case Name	Upload Postman Collection
Objective	Verify collection upload functionality
Input	Valid Postman Collection JSON
Expected Result	Collection uploaded successfully
Actual Result	Collection stored in database
Status	Pass

Test Case 5 – Collection Validation

Field	Description
Test Case ID	TC-005
Test Case Name	Validate Collection Structure
Objective	Verify collection validation
Input	Invalid JSON Collection

Field	Description
Expected Result	Validation error displayed
Actual Result	Validation error generated
Status	Pass

Test Case 6 – API Extraction

Field	Description
Test Case ID	TC-006
Test Case Name	Extract API Details
Objective	Verify API extraction process
Input	Collection containing APIs
Expected Result	API details extracted correctly
Actual Result	API information extracted
Status	Pass

Test Case 7 – Assertion Extraction

Field	Description
Test Case ID	TC-007
Test Case Name	Extract Assertions
Objective	Verify assertion extraction
Input	Collection containing Postman assertions
Expected Result	Assertions extracted correctly
Actual Result	Assertions extracted successfully
Status	Pass

Test Case 8 – Pytest Generation

Field	Description
Test Case ID	TC-008
Test Case Name	Generate Pytest Script
Objective	Verify Pytest generation
Input	Valid Collection
Expected Result	Executable Pytest script generated
Actual Result	Script generated successfully
Status	Pass

Test Case 9 – Recommendation Generation

Field	Description
Test Case ID	TC-009
Test Case Name	Generate Recommendations
Objective	Verify recommendation engine
Input	Processed Collection
Expected Result	Recommendations displayed
Actual Result	Recommendations generated
Status	Pass

Test Case 10 – Test Case Generation

Field	Description
Test Case ID	TC-010
Test Case Name	Generate Test Cases
Objective	Verify automated test case generation
Input	Processed Collection

Field	Description
Expected Result	Positive, Negative, Boundary and Security tests generated
Actual Result	Test cases generated successfully
Status	Pass

Test Case 11 – Download Generated Script

Field	Description
Test Case ID	TC-011
Test Case Name	Download Python Script
Objective	Verify download functionality
Input	Generated Pytest Script
Expected Result	Python file downloaded
Actual Result	File downloaded successfully
Status	Pass

Test Case 12 – Theme Switching

Field	Description
Test Case ID	TC-012
Test Case Name	Light/Dark Theme Toggle
Objective	Verify theme switching
Input	Toggle Theme Button
Expected Result	Theme changes correctly
Actual Result	Theme switched successfully
Status	Pass

Test Case 13 – User Data Isolation

Field	Description
Test Case ID	TC-013
Test Case Name	Multi-User Data Privacy
Objective	Verify users cannot access other users' data
Input	User A and User B accounts
Expected Result	Each user sees only their own collections
Actual Result	Data isolated successfully
Status	Pass

Test Case 14 – Logout

Field	Description
Test Case ID	TC-014
Test Case Name	User Logout
Objective	Verify logout functionality
Input	Logged-in User
Expected Result	Session terminated and redirected to login
Actual Result	Logout successful
Status	Pass

Test Summary

Metric	Count
Total Test Cases	14
Passed	14
Failed	0
Success Rate	100%

Conclusion

The application was tested across authentication, collection processing, validation, conversion, reporting, download, theme management, and multi-user security modules. All test cases executed successfully and met the expected outcomes.
